Profile

I am a Junior Mobile Application Developer with 6 months experience and I am passionate about developing a maintainable mobile app by implementing best practices. Works well in a team and always want to learn new things. Skilled in Mobile App Development using Kotlin, Java, JavaScript, React Native, and Flutter. Currently, I am still working at PT. Taksu Teknologi Indonesia but I am opening up opportunities to work in a new place that supports the development of my soft-skills and hard-skills.

Work Experience
